

Unique

Stella di Caffè: full of innovations in a fully stainless surprising body with a unique contemporary figure.

★ THERMALINK NETWORK®

Large capacities multi-boilers with intelligent networked management of the power supply and PID thermal controls for greater temperature stability, precision and flexibility :

- Large independent steam boiler 8.2 L (SDC 2) / 12 L (SDC 3) / 16L (SDC 4) 6000 W PID thermally regulated with pressure sensor
- Multi independent coffee boilers 1.65 L 2000 W per group with individual PID thermal controls for each group
- Use of maximum simultaneous power 6700 W thanks to intelligent management of the power supply, limiting power consumption while ensuring optimal performance of each function
- Variable option per group of progressive pre-infusion up to 10 seconds

★ STEAM GLIDE LEVER®

- High precision manual steam wand controlled horizontally through a ceramic cartridge
- Hot water outlet with adjustable flow

★ EASY-LOCK PORTAFILTER®

Hydraulically assisted locking group for a perfect seal with little effort

★ ENERGY GRIP®

Filter handle 6° inclined, made with special rubber that absorbs shocks and vibrations

★ CENTRAL CONTROL LCD TOUCH SCREEN

- Precision of the high definition LCD screen 4.2", customizable logo, with interface to transfer information via USB
- Intuitive programming and ease of use thanks to touch screen
- Evolutive lightening (color / intensity settings) through LED (RGB)
- Automatic night/day mode with timer program for energy saving
- Programming menus : drinks counter, automatic cleaning cycle, alarms for regular timed maintenance and water filtration replacement

★ INDEPENDENT PER GROUP TOUCH CONTROL BOXES

- Each electronic group control box is independent, equipped with up to 5-button touch screen, lightened by 5 to 9 high powered LED (RGB) producing a luminous curtain
- The group control boxes communicate with each other serially to post information on the main control screen

★ DOSAMAT®

Exclusive patented technology of auto-recognition of portafilter size with automated execution of the corresponding volumes (6 programmable volumes available)

★ STEAMAIR

Exclusive system that automatically foams milk with temperature control

The **Stella di Caffè** is available in two models, **Standard** or **Volume+**, with 2, 3, or 4 groups. The **Volume+** model has up to a 7 inch cup clearance, which can be reduced to 4 or 3 inches by means of 3 position movable grills.

	RANGE	Stella 2 di Caffè	Stella 3 di Caffè	Stella 4 di Caffè
Height (cm/in)	STD V+	49 / 19.5 56 / 22	49 / 19.5 56 / 22	49 / 19.5 56 / 22
Width (cm/in)	STD / V+	79 / 31	98 / 38.5	117 / 46
Depth (cm/in)	STD / V+	58 / 23	58 / 23	58 / 23
Weight (Kg/Lbs)	STD / V+	80 / 176	92 / 203	109 / 240
Total machine boilers capacities (Liters)	STD / V+	11.5	16.95	22.6
Steam boiler capacity (Liters)	STD / V+	8.2	12	16
Total coffee boilers capacities (Liters)	STD / V+	3.3	4.95	6.6
Total power capacity for coffee boilers (W)	STD / V+	4000	6000	8000
Total power capacity for steam boiler (W)	STD / V+	6000	6000	6000
Maximum simultaneous power (W)	STD / V+	6700	6700	6700
Voltage (V)	STD / V+	230V Single/3Phase 400V 3Phase	230V Single/3Phase 400V 3Phase	230V Single/3Phase 400V 3Phase
